 - Verifying records;
 - Certifying they are correct; and
 - Conducting random checks if doubt remains as to proficiency.
2. Once students are enrolled, the following strategies will be used to support all students with English as an additional language or dialect:
 - Teaching staff are required to continually monitor students and provide timely feedback on English language proficiency skills.
 - If tutors, mentors, and/or other members of the academic team have concerns about an individual student's English language proficiency, they should make

contact in the first instance with the Student Support Officer, who will follow up with the student and report the outcomes to the Course Director.

- The subject learning outcomes embed communication skills (verbal and written) to continuously assess students.
- The first formative assignment will be used to ensure students meet the required English skill level. If there are issues relating to their level of written English they will be referred to the Student Support Officer. Support will be provided in either group or one-to-one sessions.
